

#3 MOUNTAIN CREEK CAMPSITE – New May 2024

This site is located on the western side of the Mountain Creek Nature Trail. It is a small 4 tent-8 backpacker site with a metal fire ring. It is within 50' of the trail, and there is one spring that runs most of the time beside the camp and it's about 50' from camp. The Mountain Creek is some 200' down the trail. Best route to the site is hike in from **NO NAME PARKING LOT** 293' to the Mountain Creek Trail, turn right and it's another 4940' to the camp (total right at a mile). This site along with 3 other new ones this year are on the new 2024 trail map. As with other campsites, there is an engraved wooden sign and a brown Carsonite sign noting the entrance to the campsite off the Mountain Creek Nature Trail...

March 16, 2024- Volunteers who helped establish the site: Jim Hall, Bill Vang, Eddie Hall, Helen Hall, Malon Wickham and Mark Hughes.

Eddie Hall after rolling/measuring the distance from No Name to the site.

Wooden sign was installed on 5/5/2024 by Craig Myers and Jim Hall
